

Investing in your gas supply

East High Street Forfar

SGN
Your gas. Our network.

Smell gas?
0800 111 999

As part of a wider project in the area, we're investing **£295,000** to upgrade our gas network in East High Street, Forfar.

This essential project us involves replacing our old gas mains with new plastic pipe to ensure a continued safe and reliable gas supply for the local area for many years to come.

We've worked closely with the local authorities in planning this phase of our project which will start on Monday 6 January 2020 and take around 16 weeks to complete.

Our work in East High Street will begin at its junction with the A932 Arbroath Road, and our engineers will progress westbound along the road in sections until we reach its junction with Castle Street.

East High Street will be closed in sections as our work continues along the road, however access for businesses and residents will always be maintained, and a signed diversion route will be in place for motorists.

We'll be working 8am-4.15pm Monday to Friday, with weekends and extended hours when required.

If you have any enquiries about this project, please call us on **01398 882 934** during office hours (8am-4pm Monday to Friday), or on **0800 912 1700** at any time.
